Profile 101-31

Stock Symbol:

Since 1969, ILC has been serving the food processing and animal feed industries as an independent, fully Canadian owned laboratory. Our team of highly trained and experienced staff specializes in chemical, microbiological, nutritional and toxicological analyses. Provides consultation & confirmation for regulatory compliance as required by various gov't levels.

Products and Services

ILC is specialized in analyzing raw food materials, finished food products, pet food and environmental swabs for the food manufacturing industry using chemical and microbiological methods. ILC is committed to helping clients address compliance issues and growing consumer demand for better information on the quality and safety of food produced for human and animal consumption.
